FINALLY! Updated Color Swatch Cards

New Swatch Cards Make Selecting Colors a Breeze

Ten years ago National Nonwovens commemorated its 100-year anniversary with a complete color swatch card update. Whenever a new color collection was introduced over the past decade, a new color card addendum was added. Over time, not only did this make our color card folder over-stuffed because of our 150 plus colors in six different felt lines, it also made color selection increasingly more difficult with each new introduction.

We are pleased to announce that new - **completely updated** - color swatch cards are now available. You'll appreciate these new cards for several reasons:

1. All colors for each style are on **one card**.
2. Each card includes a 3" x 3" **hand sample**.
3. Cards are **organized by hue** for easier color selection.

The new cards were unveiled for the first time at the *2014 Spring Quilt Market* in Pittsburgh, Pennsylvania. Initial

feedback from our very happy customers is that the new cards make color selection easier and customers are rediscovering colors that were previously "lost" because of the large number of cards.

Updated color cards

- **WCF001:** wool-blend WoolFelt®
- **TOY002:** wool-blend WoolFelt®
- **WCF003:** wool-blend WoolFelt®
- **WCF006:** 100% wool WoolFelt®
