

WoolFelt Amour

French Designers: Fabulous Style

We LOVE France! As the world grieved for France after the November 2015 Paris attacks, our hearts especially turned to our French designer friends. Their European style has transformed WoolFelt into amazing projects for many years.

Atelier d'Isabelle

The company L'atelier d'Isabelle was born in 1998 in France close to the Switzerland border. "L'atelier" translated to English is "The

Workshop," and Isabel is the talented designer of this French Company. She became a quilt designer in 2002, specializing in WoolFelt applique on linen and traditional embroidery. She mixes different materials with beautiful colors so WoolFelt is perfect for her projects! She sells her designs as both kits and patterns in many shows and festivals through Europe and recently in the United States.

Cinnamon Patch

Marianne Byrne-Goarin, the designer behind *The Cinnamon Patch*, mixes patchwork fabrics with WoolFelt in seasonal creations. Her pure country french style is expressed in her much-loved penny rugs, pillows, mini-quilts, and other home decorations.

Marianne has published several popular WoolFelt pattern books. Shown here is *Esprit Folk Art*. This book has 20 woolfelt projects for the home created in a traditional folk art style yet contemporary way.

ABCDaires SARL

For 25 years, sisters Benedicte and Veronique have been designing kits and patterns for their shop, tradeshow, and online business. The sisters began to incorporate National Nonwovens' WoolFelt in their charming projects many years ago and continue using it in their *14 Days a Week* pattern line. The patterns are fun and fast projects including their incredibly

adorable *Tiny Felt People Collection* of soft doll patterns. The Tiny Felt People are characters from childhood tale classics and Christmas ornaments, often starring Hortense the Mouse™.

Patterns sold in the US by Hoffman Distributing Company (hoffmandis.com) and in the UK by Hantex. The sisters of ABCDaires also sell directly at benedicte@abcdaires.com.
