## Once Upon a WoolFelt Collection

### INTRODUCING THE NEW COLORS!

Have you dreamt of dramatically heathered WoolFelt® hues with contrasting color tones? If so, your dreams have come true with our six new TOY002 colors collectively called the *Once Upon a WoolFelt Collection*.

These captivating new colors will spark the imagination of all who see them when unveiled at the **2016 International Spring Quilt Market** (please see page 2 for more information).

This is the first collection in several years to feature heathered-hues that are popular with felt enthusiasts for their variations of complementary color tones. Each color in this luxurious new collection

tells a story of faraway magical kingdoms and whimsical garden tea parties. The colors include:

- **Pixie Pink** – *a fun, fantastical fusion of variegated pink tones*
- **Spellbound Sapphire** – *dreamy blue dappled with glistening light tinges*
- **Charming Coral** – *Soft yet fiery orange hues blushing with charisma*
- **Leaping Lizards** – *energetic greens glistening with sunny yellow elements*

- **Forbidden Forest** – *a tangle of dark and minty greens splashed with brown*
- **Bewitching Brown** – *multicolored brown with playful, dark streaks*

With the addition of these fabulous new hues, National Nonwovens now has an astounding 76 colors in the TOY002 product line. Altogether, there are 150 total WoolFelt® colors when combining the three WoolFelt styles: WCF001, TOY002, and WCF006!

If you would like to order or need a color swatch card (see above), please call our Customer Service Department at 800-333-3469 extension 642, 643 or 645.
