Custom Color Cards

Show Your Swatches!

Because our goal is always to help YOU sell more of OUR felt, we can provide you with your own custom color cards. These are particularly helpful if you sell online and your customers want to see swatches before they make a purchase.

The cards cost \$1.00 each. After you tell your Customer Service Rep that you are interested in this service, a card will be designed with your felt colors, company name, and logo. Finalizing and adhering the die-cuts takes approximately one month so plan accordingly. Some restrictions apply and lead times vary.
