

Felt Expressions @ Times Square

Felt is an incredibly effective art medium for all ages to express creativity, imagination, and expression making it the ideal backdrop for **Workshop on the Street: May Day** at Times Square in New York City. National Nonwovens was thrilled to help sponsor this fun event this past year by donating large yardages of felt.

Workshop on the Street: May Day helps participants pour their passions and concerns into felt; engaging the community in social action. It is a part of a yearlong collaboration between Times Square Arts and House of Trees, and a larger *Word on the Street* project.
